Under 37 CFR §§1.8(b) and 1.181, applicant hereby petitions to withdraw the Notice of Abandonment mailed June 17, 2003 (copy enclosed). The application was abandoned under 37 CFR §1.135 for failure to respond to the "Notice to File Missing Parts" mailed March 13, 2001.

The undersigned, applicant's attorney of record, first became aware of the abandonment on June 24, 2003, upon receipt of the Notice of Abandonment and submits that this petition to withdraw the Notice is being promptly submitted as required by 37 CFR §1.8(b)(1).

The Notice to File Missing Parts was not received by the practitioner and a search of the file jacket and docket records indicates that the Notice to File Missing Parts was not received.

The following declaration and supporting exhibits are submitted under 37 CFR §1.181(a) as proof that the Notice to File Missing Parts was never received.

firm manual log for all applications (Exhibit B), and the firm docket printout for all applications (Exhibit C and D).

As Fredrik Mollborn explains in his declaration, neither the firm mail log nor the firm docket indicates that the Notice to File Missing Parts mailed March 13, 2001 was ever received.

## MAIL STOP PETITION

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

DECLARATION BY FREDRIK MOLLBORN

I, Fredrik Mollborn, declare as follows:

1. I have been employed by Fish & Richardson P.C. since October 16, 2000.

During the time in question, I was a patent agent at the Redwood City office of Fish & Richardson P.C.

2. When mail is received by Fish & Richardson P.C. from the U.S. Patent and Trademark Office ("PTO"), the mail is entered and docketed into the Fish & Richardson P.C. computerized docketing system and entered into a manual log of all PTO mail received to date. It is then sent to the attorney/agent in charge of the case for entry into the file.

3. According to our docket system the case identified as U.S.S.N. 09/782,596 filed February 12, 2001 corresponds to attorney docket number (reference #) 07844/413001.

## CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Attorney's Docket No.: 07844-413001 / P377

4. I have checked our computerized docketing system and a docket record for the application (Exhibit A) and found that the Notice to File Missing Parts dated March 13, 2001 correspondence concerning the above-captioned case was not entered or docketed.

5. I have checked our manual log (Exhibit B) for the period of time from March 13, 2001 through April 30, 2001 and there is no record of ever receiving the March 13, 2001 PTO correspondence in question.

6. I have checked copies of our docket printout of all actions due by the firm of Fish & Richardson P.C. showing docketing deadlines occurring on May 13, 2001, the due date (Exhibit C) and September 13, 2001, the deadline (Exhibit D). Each entry in Exhibits C and D identifies the docketed date; the Fish & Richardson reference number; a description of the action; and a description of the type of deadline. For reference number 07844/413001 (corresponding to application U.S.S.N. 09/782,596), if we had received a Notice to File Missing Parts dated March 13, 2001, I would have expected to find a docketed due date of May 13, 2001, and docketed final deadline of September 13, 2001 for a reply to the Notice to File Missing Parts. I did not find such docket entries in Exhibits C and D.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.
